2. NATURE OF SERVICE RENDERED

a) Standard Voltages and Phase Arrangements

Utility renders alternating current (AC) service only, at a frequency of sixty cycles per second (60Hz). Service is available for small loads at single-phase, 120/240 volts, three-wire. Three-phase service is available for larger loads at the following voltages and phase arrangements:

Secondary Voltages

- 120/208 volts, three-phase, four-wire.
- 240 volts, three-phase, three-wire.
- 240 volts, three-phase, four-wire, with middle tap of one phase grounded to provide also single-phase, three-wire, 120/240 volts (no longer available for new services).
- 277/480 volts, three-phase, four-wire.
- 480 volts, three-phase, three-wire.

Primary Voltages

- 2400 volts, three-phase, three-wire.
- 4800 volts, three-phase, three-wire.
- 2400/4160 volts, three-phase, four-wire.
- 13,800 volts, three-phase, three-wire.

b) Non-Standard Service

If Customer requires voltage and phase arrangements other than as set forth above, he shall be afforded service at one of the foregoing standard voltages only; and he shall furnish and pay for equipment necessary for service at his desired conditions. In such case, service shall be metered and billed for at the standard voltage and phase arrangements at which it is supplied.

Where Customer requires voltage regulation within closer limits than permitted by standard practice, or than required by Public Service Commission regulations, this shall be deemed to be non-standard service.

GENERAL INFORMATION

Form "D"

APPLICATION FOR ALTERNATING CURRENT ELECTRIC POWER SERVICE

_____ 19____

The undersigned (hereinafter called the Customer) hereby applies to the ELECTRIC DIVISION, BOARD OF PUBLIC UTILITIES, CITY OF JAMESTOWN, NEW YORK (hereinafter called the City), to supply electric energy at approximately _____volts _____cycles and _____phase, for use upon the premises located at _____

for and during the period of one year from the date of this instrument and thereafter until cancelled at the end of any yearly period by the Customer on at least thirty (30) days written notice in advance of such termination for _____ kilowatts of connected electric load as enumerated and detailed on Utility's form No. B-3, and to pay for said service as bills are rendered therefor in accordance with the rates, rules and regulations in Service Classification No. _____ authorized by the Public Service Commission of the State of New York and in effect at the time of delivery. The Customer agrees to pay minimum monthly charges for a monthly demand of not less than _____ kilowatts during the original term.

Consent is hereby given to erect and maintain on the highway adjacent to or through my property all poles, wires and apparatus connected with the line from which service is to be supplied and to trim trees located on my property as the Utility finds necessary for service from said line.

The Customer agrees to observe and perform all rules and regulations of the City as same may be from time to time changed, amended and/or supplemented by the Board of Public Utilities of said City, all of which rules and regulations as from time to time in force are open to public inspection at the offices of the City.

Accepted this _____ day of _____, 19____. _____
