

SERVICE CLASSIFICATION NO. 1

RESIDENTIAL SERVICE

APPLICABLE TO USE OF SERVICE FOR:

All residential purposes in single-family residences and in individual dwelling units in multiple family residences which are individually metered. This classification also applies to religious bodies utilizing service exclusively in connection with religious purposes when required by law. Applicable also to use exclusively in connection with a community residence as defined in Subdivisions 28, 28-a, or 28-b of Section 1.03 of the Mental Hygiene Law, provided that such residence is on-site on a twenty-four hour per day basis, that the residence provides living accommodations for fourteen or fewer residents, and to any post or hall-owned or leased by a not-for-profit organization that is a veterans' organization. This service classification is also applicable to dwellings otherwise included in this classification which are used for residential purposes and as 'family day care homes' as defined in section 390-1(e) of the Social Services Law. For other limitations, see Special Provisions below.

CHARACTER OF SERVICE:

Continuous alternating current, single phase, 60 Hz, at the available single phase standard secondary voltage as specified in Rule II.2(a) of the Rules and Regulations.

RATE:	<u>Rate</u>
CUSTOMER CHARGE:	\$7.00
ENERGY: All kwh, per kwh	\$0.04217

FUEL ADJUSTMENT: The charges set forth in this Service Classification shall be subject to a fuel adjustment as explained on Leaf Nos. 17 and 17A.

MONTHLY MINIMUM CHARGE: \$7.00

TERMS OF PAYMENT: Bills are rendered at the above Rate and are subject to a late payment charge as specified in Rule II.4(b)(2) of the Rules and Regulations.

TERM: The term of service hereunder is for one month and continuously from month to month thereafter until terminated by three days' notice to Utility subject to Rule II.5(c) of the Rules and Regulations.

SPECIAL PROVISIONS: A. Written application on Form "A" is required for initial service connections to all new buildings or premises to be supplied under this Service Classification. Thereafter, a residential service application may be oral or written. An oral application for service shall be deemed completed when the applicant provides his or her name, address, telephone number, and address of prior account (if any) or prior account number (if any). The Utility may require an applicant to complete a written application if:

Date of Issue October 1, 2007

Date Effective November 1, 2007

Issued by David L. Leathers, Interim General Manager, Jamestown, New York

Issued under order of NYS Public Service Commission

issued September 29, 2005 in case 04-E-1485.

SERVICE CLASSIFICATION NO. 2

GENERAL SERVICE - SMALL

APPLICABLE TO USE OF SERVICE FOR:

All uses by Customers for which no other Service Classification is specifically provided and where such uses are delivered at a single point of delivery.

CHARACTER OF SERVICE:

Continuous alternating current, 60 Hz, and phase arrangement as specified in Section 2(a) of the Rules and Regulations. On Customer's application, Utility will specify the type or types of service available and appropriate for Customer's requirements.

RATE:

For those Customers receiving service with a meter measuring only energy (kwh) consumption:

	<u>Rate</u>
CUSTOMER CHARGE:	\$8.25
ENERGY: For all kwh, per kwh	\$0.05732

For those Customers receiving service with a meter or meters measuring both demand (kw) and energy (kwh) consumption:

		<u>Rate</u>
CUSTOMER CHARGE:		
DEMAND: For all kw, per kw		\$9.00
ENERGY: For all kwh, per kwh		\$4.00
REACTIVE	For each kvar of demand in excess	\$0.04512
POWER:	of 1/3 kvar per kw of measured demand, per kvar	\$0.28

FUEL ADJUSTMENT: The charges set forth in this Service Classification shall be subject to a fuel adjustment as explained on Leaf Nos. 17 and 17A.

MONTHLY MINIMUM CHARGE: The minimum monthly charge will be \$9.00 for those customers receiving service with a meter measuring only energy consumption and \$21.00 for those customers receiving service with a meter or meters receiving both demand and energy consumption.

DETERMINATION OF DEMAND:

- a) The billing demand shall be the greater of the following quantities:
 - 1) the maximum thirty (30) minute kilowatt integrated demand measured during the billing month;
 - 2) 3 kw.

Date of Issue October 1, 2007

Date Effective November 1, 2007

Issued by David L. Leathers, Interim General Manager, Jamestown, New York

Issued under order of NYS Public Service Commission

issued September 29, 2005 in case 04-E-1485.

SERVICE CLASSIFICATION NO. 3

GENERAL SERVICE - LARGE

APPLICABLE TO USE OF SERVICE FOR:

All uses by customers contracting for supply of 100 kilowatts (kw) or more.

CHARACTER OF SERVICE:

Continuous alternating current, 60 Hz, at any standard voltage and phase arrangement as specified in Section 2(a) of the Rules and Regulations.

Customers taking service hereunder must contract for the location, quantity and character of service required. On Customer's application, Utility will specify the type or types of service available and appropriate for Customer's requirements.

RATE:

	<u>Rate</u>
CUSTOMER CHARGE:	\$160.00
DEMAND: For all kw, per kw	\$4.55
ENERGY: For all kwh, per kwh	\$.02994

DEMAND & ENERGY CAP: The average effective combined charge for all energy billed under DEMAND and ENERGY shall not exceed an effective rate combined rate of \$0.07005

REACTIVE POWER: For each kvar of demand in excess of 1/3 kvar per kw of measured demand, per kvar \$0.28

FUEL ADJUSTMENT:

The charges set forth in this Service Classification shall be subject to a fuel adjustment as explained on Leaf Nos. 17 and 17A.

NET MONTHLY MINIMUM CHARGE:

The minimum monthly charge will be \$615.00

Date of Issue October 1, 2007

Date Effective November 1, 2007

Issued by David L. Leathers, Interim General Manager, Jamestown, New York

Issued under order of NYS Public Service Commission
issued September 29, 2005 in case 04-E-1485.

SERVICE CLASSIFICATION NO. 4

OFF-STREET LIGHTING

APPLICABLE TO USE OF SERVICE FOR:

Outdoor lighting of areas other than public streets, highways, and roadways, for individuals, private organizations, and institutional establishments where suitable electric service lines are available.

AVAILABILITY:

Mercury vapor lamps shall not be available for new installations except where such installations will be necessary in order to preserve a uniform lighting appearance within or immediately adjacent to an existing lighting system of the same size mercury vapor lamps.

CHARACTER OF SERVICE:

Unmetered service for limited period, dusk-to-dawn, of approximately 4,000 hours per year; alternating current, 60 Hz, at voltage designated by the Utility. Utility will own, operate, and maintain all facilities installed by it. Lamps and fixtures will be located as designated by Customer but will be located so as to be available to Utility's service vehicles.

RATE:

The charge for service for each calendar month shall be the sum of the following:

A. Charges per Lamp per Month.

<u>Mercury Vapor</u>		<u>Sodium Vapor</u>	
<u>Size</u>	<u>Rate</u>	<u>Size</u>	<u>Rate</u>
7,200 Lumen, 175 Watts	\$6.23	15,000 Lumen, 150 Watts	\$8.27
11,000 Lumen, 250 Watts	7.71	23,000 Lumen, 250 Watts	11.06
17,000 Lumen, 400 Watts	9.61	46,500 Lumen, 400 Watts	11.64

B. Facilities charge.

1. When suitable poles are available in Utility's existing distribution system, no charge will be made for the pole.

SERVICE CLASSIFICATION NO. 4

OFF-STREET LIGHTING

RATE: (cont.)

B. Facilities charge. (cont.)

2. When additional pole or poles with necessary guys and anchors are required for installation of the lamps requested by the Customer, the Utility will install, operate, and maintain such poles and appurtenances, and the Customer shall pay \$2.48 per month for each pole installed. Not more than one pole will be installed for each lamp and fixture installed under this Service Classification.

3. When overhead service wires are not available on existing poles and service wires are required on existing poles or on additional poles for the installation of the lamps requested by the Customer under this Service Classification, the Utility will install, own, and operate the required overhead service wires and the Customer will pay 78 cents a month for the first 100 circuit feet or less and 78 cents a month for each additional 100 circuit feet or major fraction thereof.

FUEL ADJUSTMENT:

The charges set forth in this Service Classification shall be subject to a fuel adjustment as explained on Leaf Nos. 17 and 17A. The amount of energy used shall be the kilowatthours set forth in the following table for each lamp installed:

<u>Monthly Energy Consumption, Kilowatthours</u>						
	<u>Mercury Vapor Lamps</u> <u>Nominal Rating</u>			<u>Sodium Vapor Lamps</u> <u>Nominal Rating</u>		
<u>Month</u>	<u>175</u>	<u>250</u>	<u>400</u>	<u>150</u>	<u>250</u>	<u>400</u>
January	95	132	209	84	137	219
February	79	110	175	70	114	183
March	80	111	176	71	115	184
April	68	95	151	60	98	157

June	56	78	124	50	81	129
July	59	82	130	52	85	135
August	66	93	147	59	96	153
September	70	97	154	62	101	161
October	81	113	179	72	117	187
November	88	122	194	78	127	202
December	96	134	213	86	139	223

Date of Issue October 1, 2007

Date Effective November 1, 2007

Issued by David L. Leathers, Interim General Manager, Jamestown, New York

Issued under order of NYS Public Service Commission

issued September 29, 2005 in case 04-E-1485.

SERVICE CLASSIFICATION NO. 5

MUNICIPAL STREET LIGHTING SERVICE

AVAILABILITY:

This service classification is available to any city, village, or town, situated within or adjacent to any city, village or town (hereafter called "Municipality"), in which Utility is rendering electric service under an ordinance granting Utility the privilege of occupying the streets, alleys, and other public places in said municipality for the purpose of transmission, distribution, and sale of electric service.

Mercury vapor lamps shall not be available for new installations except where such installations will be necessary in order to preserve a uniform lighting appearance within or immediately adjacent to an existing street lighting system of the same size mercury vapor lamps.

CLASS OF SERVICE:

Utility will furnish the classes of service described below, each at the corresponding charges per lamp per month, including maintenance, electric energy requirements, and replacements of lamps and other glassware as required on systems owned and operated by Utility.

- Class B -- Either mercury vapor or sodium vapor lamps, overhead construction, on distribution system wood pole.
- Class C -- Either mercury vapor or sodium vapor lamps, overhead construction, on individual wood pole.
- Class D -- Either mercury vapor or sodium vapor lamps on either standard overhead metal pole or Fiberglas pole construction.

RATE:

The charge shall equal the sum of the charges below and other applicable charges under Utility's Schedule of Rates for Electric Service.

A. Charges per Lamp per Month.

The following rates are based on approximately 4,000 hours per year burning schedule including all hours of darkness:

<u>Mercury Vapor</u> <u>Size</u>	<u>Class B</u>	<u>Class C</u>	<u>Class D</u>
7,200 Lumen, 175 Watts	\$4.32	\$5.79	\$7.73
11,000 Lumen, 250 Watts	\$5.09	\$6.66	\$8.54
17,000 Lumen, 400 Watts	\$7.48	\$9.06	\$10.94

SERVICE CLASSIFICATION NO. 5

MUNICIPAL STREET LIGHTING SERVICE

RATE: (cont.)

A. Charges per Lamp per Month. (cont.)

<u>Sodium Vapor</u> <u>Size</u>	<u>Class B</u>	<u>Class C</u>	<u>Class D</u>
15,000 Lumen, 150 Watts	\$5.60	\$7.11	\$9.06
23,000 Lumen, 250 Watts	\$7.14	\$8.72	\$10.60
46,500 Lumen, 400 Watts	\$8.88	\$10.47	\$12.35

B. Facilities Charges.

Where Utility installs, operates, and maintains facilities other than those facilities used in standard overhead street lighting installation, Customers shall pay a monthly charge equal to 1.00% of the cost of such additional facilities. These additional charges shall be in addition to those charges provided for above.

FUEL ADJUSTMENT:

The charges set forth in this Service Classification shall be subject to a fuel adjustment as explained on Leaf Nos. 17 and 17A. The amount of energy used shall be the kilowatt hours set forth in the following table for each lamp installed.

<u>Monthly Energy Consumption, Kilowatthours</u>							
<u>Month</u>	<u>Incandescent</u>	<u>Mercury Vapor Lamps</u> <u>Nominal Rating</u>			<u>Sodium Vapor Lamps</u> <u>Nominal Rating</u>		
	<u>100</u>	<u>175</u>	<u>250</u>	<u>400</u>	<u>150</u>	<u>250</u>	<u>400</u>
