

NOTICE OF PUBLIC MEETING FOR BPU CLEAN COAL PROJECT

The Board of Public Utilities will be holding a public meeting regarding its Clean Coal Project on March 14, 2006 at 6:30 pm at the Jamestown High School Auditorium, 350 East Second Street, Jamestown. The BPU is holding this additional meeting to update its immediate neighbors regarding the project and to get their input on the environmental impacts associated with the Project.

At the meeting, the BPU will discuss its plans for building a new clean coal unit, called a Circulating Fluidized Bed plant (or "CFB"). The main purpose of the meeting, however, is for the BPU to hear from its neighbors regarding your views on the project.

If you would rather provide written comments than participate in a meeting, written comments should be sent to:

**Sue Jones
Communications Coordinator
Jamestown Board of Public Utilities
92 Steele Street
Jamestown, New York 14072**

Written comments will be accepted until April 4, 2006. For further information about the meeting or the written comment period, please contact Sue Jones at (716)661-1666. Documents describing the clean coal project, the operations center and the issues that will be addressed during the project's review, will also be available from Ms. Jones at the BPU offices, 92 Steele Street, Jamestown before the meeting.
