

## BPU ENERGY STAR Additional Information

### How rebates are issued

Upon verification, home owners will receive the rebate in the form of a credit on their electric bill. For rental property owners, all rebates less than \$500 will be applied to their accounts. If the rebate exceeds the \$500 limit, the rental property owner can request a check for the rebate.

### Rebate limits

The limit for BPU ENERGY STAR item rebates is \$1,000 per customer account per calendar year and \$5,000 per year for rental property owners. Exemptions are available for heat pump installations.

### Conditions of Offer

The BPU is not liable for and does not guarantee the performance of any product, the actions of any contractor who installs a product or energy savings associated with products. The customer is responsible for payment of all taxes associated with this program. The Jamestown BPU reserves the right to terminate or modify this program at any time.
